

Efka[®] SL 3230

New cost-effective, universal, high performance slip & leveling agent
Especially designed for solvent-based and UV-curable wood and industrial coatings and printing inks

Performance Highlights

- Suitable for high gloss systems and clear coats
- Pronounced surface activity and crater prevention
- Increased slip
- Improved leveling and surface smoothness
- Improved scratch and abrasion resistance
- Excellent price performance ratio

Sustainability Highlights

- No hazard warning label
- Low VOC

Efka® SL 3230

Universal, cost-effective, high performance slip and leveling agent

Efka® SL 3230 is a universal polyethersiloxane-based, cost-effective, high performance slip and leveling agent. Especially designed for solvent-based and solvent-free coatings.

Efka® SL 3230 shows excellent reduction of surface tension in UV systems leading to an improved gloss level. Additionally, the surface slip is improved resulting in a strong reduction of the COF.

Due to its excellent compatibility Efka® SL 3230 is also suitable for clear coats.

Gloss and surface tension values in UV-curable varnish 1

Efka® SL 3230 achieves an excellent reduction of surface tension in UV systems, leading to an improved gloss level.
