Application

Joncryl 624 is a general purpose, soft film forming, Rheology Controlled (RC) acrylic emulsion for the use in water-based flexographic and gravure inks on flexible films and foils. It is a versatile film forming emulsion that has good adhesion to a broad range of polyolefin films.

Joncryl 624 is excellent when used as a universal film forming vehicle with the right combination of properties for surface printing and adhesion lamination applications. When it is used as an additive, this emulsion will impart good rub resistance properties to paper and paperboard inks.

Joncryl 624 is recommended for applications such as:

- Printing inks for flexographic and gravure applications

Safety

General	The usual safety precautions when handling chemicals must be observed. These include the measures described in Federal, State and Local health and safety regulations, thorough ventilation of the workplace, good skin care and wearing of protective goggles.
Safety Data Sheet	All safety information is provided in the Safety Data Sheet for Joncryl 624.

Storage

Please refer to the "Handling and Storage of Polymer Dispersions" brochure.
